

### Redwood Heading:

**Directions:** Using a sharp dark pencil or fine point black pen (printed labels are also OK), identify and label the following countries on the map (for some of the smaller countries you will need to label them outside the country and draw an arrow to it's location). Then choose 6 or 7 different colored pencils to neatly shade in the countries in the region. Remember that no two countries that touch each other can be the same color. Don't use any more than 7 different colors! Label these countries: **Iceland, Norway, Sweden, Finland, Russia, Ireland, United Kingdom, Denmark, Lithuania, Latvia, Estonia, Netherlands, Germany, Poland, Belarus, Belgium, Luxembourg, Czech Republic, Slovakia, Ukraine, France, Switzerland, Austria, Hungary, Romania, Moldova, Italy, Slovenia, Croatia, Bosnia, Serbia, Montenegro, Kosovo, Bulgaria, Albania, Macedonia, Greece, Andorra, Portugal, and Spain.**
